

Is there a correlation between specific days of the week and the frequency of breakdowns or delays?

Count of Breakdown_or_Running_Late

Running Late

Day of Week

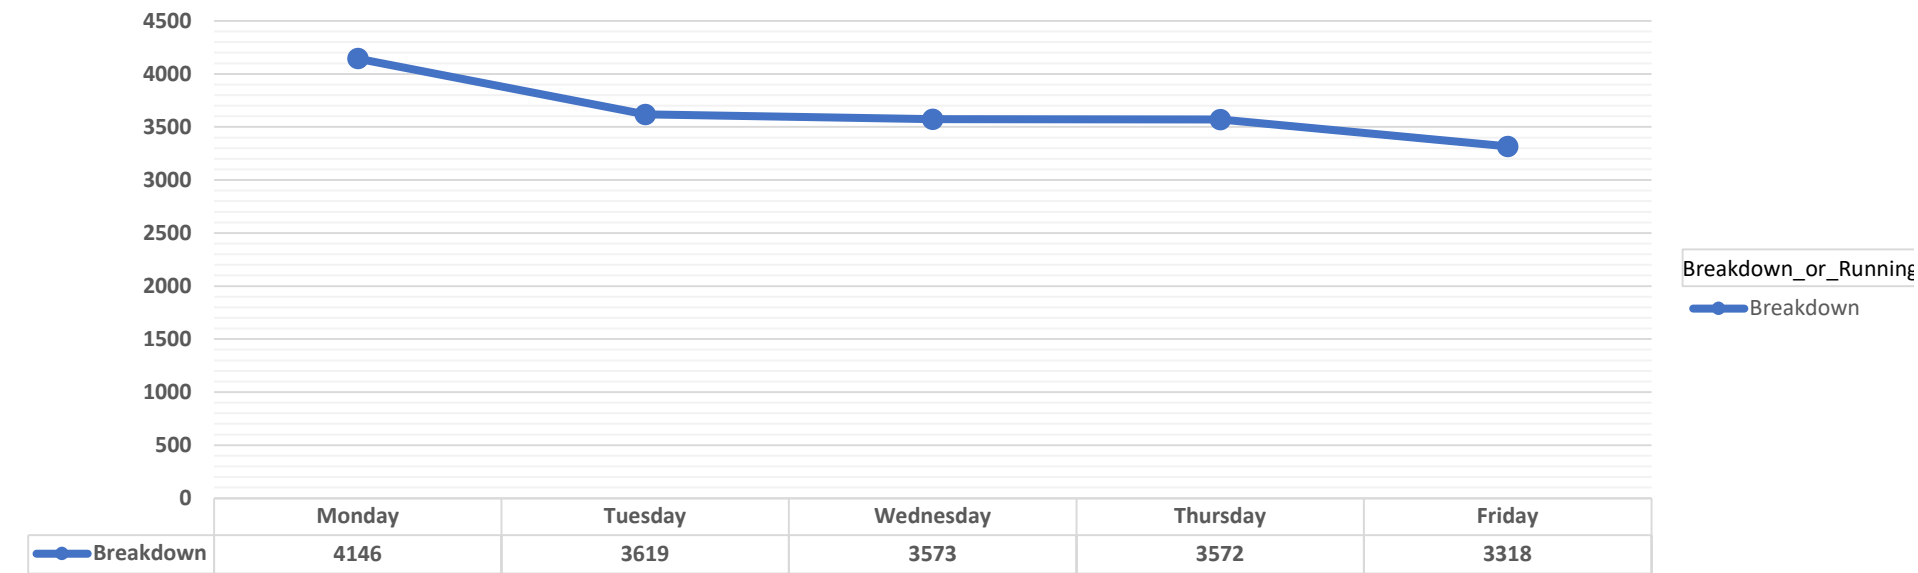

Findings

Spike in Delays on Mondays and a decrease in delay on Fridays.

Conclusion: Since the majority of delays caused by traffic, we can assume the decrease in delays on Fridays are caused by less people going to work on driving or

Count of Breakdown_or_Running_Late

Breakdown

Day of Week

Findings

There is a gradual decrease in breakdown throughout the week.

Conclusion: Since the majority of delays caused by traffic, we can assume the decrease in delays on Fridays are caused by less people going to work on driving o
